A SENIOR LIVING COMMUNITY

ASSISTED LIVING | MEMORY CARE

# Coming soon...

At Wingate Residences at Haverhill, you can look forward to living at the level of independence to which you're accustomed, with the opportunity to transition to different levels of care as your needs evolve.

Our new assisted living and memory care residences will be conveniently located on a Wingate continuum of care campus. Wingate's skilled nursing community, situated directly on the campus, provides short-term rehabilitation, long-term care and is home to the Gym at Wingate, a state-of-the-art therapy suite.

If your health needs change, we can support you with greater care options right here on our campus.
